

TO ALL OCCUPANTS AND RESIDENTS

The Greenwood Metropolitan District is in the process of obtaining information to design and install a sewer collection system in your neighborhood in the near future. The funds to provide the sewer system will be provided by a grant from the South Carolina Department of Commerce, administered by the Upper Savannah Council of Governments, with additional funds provided by Greenwood County.

Greenwood Metropolitan District personnel will be in your yard to determine and document the location of your power meter, the direction your sewer service line exits your dwelling, the location of your existing septic tank and drainfield, as well as the location for a sewer pump to serve your property.

There will only be information gathering at this time. If you have questions or need additional information please call George Martin at 943-8004.
